All "happenings" aside, this is reality and like it or not the world is about to change.
Jupiter and Saturn are going to be visible in the night sky with just 0.06 degrees apart, making it the best planetary conjunction in since the days of enlightenment.
The Great Conjunction happens the same day of the Winter Solstice (Dec. 21st).
It happens at 0 degrees of Aquarius representing a NEW START & NEW PARADIGM in this Aquarius.

>So, what does this all mean for us?
Jupiter/Saturn Conjunction is considered to be 'generational' and it's also emphasized to represent a NEW WORLD VIEW particularly when they're shifting elements (EARTH to AIR). This shift causes huge changes in:
>Social & Political Structures
>Culture of the Time
>Our Values
>The Economy
>Technology
Basically, the way society operates.

This shift is emphasized also because we know *Pluto is moving through Capricorn* which represents the transformation and the deconstruction of the Old World Order. So this adds to the same theme.
This particular conjunction hasn't happened in the sign of Aquarius since 1405 – the beginning of the EARLY RENAISSANCE – the flowering of creativity, literature, art, etc.
Expect some kind of flowering of our culture – however this one is said to look more technological than creative (Aquarius is associated with Air – technology, communication, consciousness, perception).
We're looking at life enhancing, life supporting new technology, huge changes in the financial system, much greater equalization in wealth and a new world paradigm view.
This isn't just a powerful day astrologically, it really is the convergence of many other systems as foretold by prophets and men who are more enlightened than you will ever dream of being.
This portal is a major upgrade of Earth & Consciousness ~ the Great Rebirth of Humanity!
>Side note: Many people don't know this, but Benjamin Franklin worked with Astrology. When Benjamin Franklin picked a date for America's Founding Fathers to sign the Declaration of Independence, he made sure the day was the perfect astrological day. He chose July 4, 1776, because on that day, FIVE planets came together in the sky to form a FIVE PLANET PLANETARY ECLIPSE.
Whether you are capable of understanding this or not, it is real.

God speed anons

And exactly what kind of enlightenment will niggers and muzzies bring in this new world utopia of yours?
There is only destruction, you fool. Aquarius is a lazy useless misanthrope, and the only thing he creates is what comes out of the destruction, which is ashes. You have been warned.

If you died today, where would you spend eternity?
https://www.youtube.com/watch?v=EwXlByJ4cjo

>"These things have I written unto you that believe on the name of the Son of God; that ye may know that ye have eternal life, and that ye may believe on the name of the Son of God." -- 1 John 5:13

>"And as it is appointed unto men once to die, but after this the judgment:" -- Hebrews 9:27

How will you fair on judgement day? Have you ever disobeyed God? Think of the ten commandments, have you ever told a lie?
Took something that's not yours? Lusted after a person who is not yours?
If you have ever sinned, God's punishment for you is the second death, or Hell.

>"For the wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord." -- Romans 6:23

God has passed the sentence of death to you, but he is offering his only begotten Son as a sacrifice. He is offering to give you a free gift of eternal life and forgiveness of your sins.

>"For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life." -- John 3:16
>"And it shall come to pass, that whosoever shall call on the name of the Lord shall be saved." -- Acts 2:21

If you want to accept God's gift of eternal life, offered to you for free, no works, no strings attached, then pray a prayer like this to God:

"Dear God, I acknowledge to you that I am a sinner, and I am sorry for my sins and the life that I have lived; I need your forgiveness.
I believe that your only begotten Son Jesus Christ shed His precious blood on the cross and died for my sins.
You said in the bible that if we confess the Lord our God and believe in our hearts that God raised Jesus from the dead, we shall be saved.
Right now I confess Jesus as my Lord. With my heart, I believe that God raised Jesus from the dead.
This very moment I accept Jesus Christ as my Savior and according to His Word, right now I am saved. Amen."

Even so, all of humanity with even a weak connection to God will likely experience a growth in that connection and the accompanying new sensitivity to natural born man's extrasensory perception.

>Aquarius is a lazy useless misanthrop
true lol
Saturn is considered -by those who believe in planetary influences to impose restrictions- said influence is good to practice and perfect a method, not good for starting new enterprises, while Jupiter is a magnifier and promote expansion.
In the roman times (and in ancient greece before thaose) there was a tradition called saturnalia (later baccanali); it was a feast starting the eight days before solstice (21st dec) and lasting eight days after.
The first 8 days would have been of contritiolike fasting, praying the planet - gods to make it stop the days getting shorter, solstice (sol invictvs) was so important because it's the shortest day, the day where the darkness prevail on the sunlight.
From that date would start 8 days of celebrations who were a mix of carnival / live music / orgies / frat parties and an exchange of gifts to celebrate the fact that the sun won over darkness and life would soon return to normal.

Those celebrations doesn't exist anymore but they were so popular they were either absorbed by the christians or remained in some form detatched from religion from south to north europe (except the orgies).
Thus the fact that this conjunction happen on the 21st, and in the mid of this ultra mega fucking planetary clusterfuck, as you may understand may hold some significance for those who believes in such things.
Planets and constellations are both time and position markers, that's why their observation was so crucial since the beginning of the times for each and any civilization, after all you need a calendar first to keep records of events.
Aquarius is all about not having an ego or having it very sparse (like the other "air" signs), mundane businesses are annoyances, you only want to enjoy beauty and despise every kind of pollution.

Funny how this fucking leaf thinks the Conjunction will lead to an age of prosperity to his nation let alone himself. If you haven't noticed, we've already entered the age of aquarius since the last decade.
The rise of a new world order and the death of the previous one, this is what it all leads to.
Now notice how countries like China, Russia, Iran and other are rising while the West continues it's unrelenting collapse and decadence, drowning in transgenderism filth, scamdemic lockdowns, and a free fall economy.
I'm sorry for you faggots if you think this means a white awakening or some lame shit like that.
The Conjunction signifies the end of your era. The great reset trailers even mention this, it's no coincidence. That's why the elites have been moving out of the West and into other countries.
The new world will be led by China and other non western nations while you are left to rot for your sins.

"Transitions between the aeons always seem to have been melancholy and despairing times, as for instance the collapse of the Old Kingdom in Egypt… between Taurus and Aries, or the melancholy of the Augustinian age between Aries and Pisces. And now we are moving into Aquarius, of which the Sibylline Books say: Luciferi vires accendit Aquarius acres (Aquarius inflames the savage forces of Lucifer). And we are only at the beginning of this apocalyptic development! Already I am a grandfather twice over and see those distant generations growing up who long after we are gone will spend their lives in that darkness…. " Carl Jung

What this Kike OP is saying is that Rome (as represented by Jupiter) is merging with Israel and Saudi Arabia (as represented by Saturn). He's not referring to an actual cosmological event, just using weasel words and occult symbolism to convey his message.

No you disgusting subhuman Kike, I will not join your New World Order and mongrelize my gene pool. No. It will not happen. You can fuck off and die.

I am happy being white and I don't want my children to look like disgusting 80IQ rat vermin without souls. Die in a fire you filthy hebrew communist.

DECEMBER 25th
The birth of the SUN

The Winters Solstice is also know as Yule, Christmas, and Saturnalia
The longest night of winter, after which each of the days grow progressively longer until the Summer Solstice.
Sun is AT the lowest in the southern sky. During the short winter days the Sun does not rise exactly in the east, but instead rises just south of east and it sets south of west. Each day after the winter solstice, the Sun's path becomes a little higher after having remained motionless in the sky for 3 days. The Sun also begins to rise closer to the east and set closer to the west until we reach the day when it rises exactly east and sets exactly west. This day is called the equinox.

Sirius, the brightest star in the night sky, which on December 24th aligns with the three brightest stars in Orion's belt. These three bright stars in Orion's belt are called "the three kings."

And the three kings and the brightest star Sirius all point to the place of the sunrise on December 25th. This is why the 3 kings follow the star in the east in order to locate the sunrise: the birth of the sun.

And by December 22nd, the sun's demise was fully realized for the sun, having moved south continually for 6 months, makes it to its lowest point in the sky. Here, a curious thing occurs. The sun stops moving south at least perceivably for 3 days and during this 3-day pause, the sun resides in the vicinity of the Southern Cross, or Crux constellation. And after this time, on December 25th, the sun moves 1 degree this time north, foreshadowing longer days, warmth, and spring. And thus it was said: "The sun died on the cross, was dead for 3 days, only to be resurrected or born again."

Also the conjunction is going to happen in 0 degrees Aquarius. Combination of all of this is EXTREMELLY RARE

So you do this
You first remove thoughts when you get them and clear your mind completely.

Then you see purple.
Then you feel a tingle in your body and you bring that through your body.
That tingle is there forever now.

Then you bring hot and cold through it charge yourself
Then you do vibration.

You need to continually make these higher and higher. Stronger the highest and most intense you will go.

You can make any sensation appear in your body. You want to feel bubbles you can electricity you can so many things
After you do this you start charging up your pours
Breathe through pours
Then charge up the rest of your body.

You will be able to feel the energy of the world around you emotions pain everyone has.
You will feel music like it's a speaker in your body.
You will be able to make girls cum with energy by just using your energy and mind without any physical movement
You can meditate all being high or drunk away. Or feel it from people who are drunk or high.

You will be able to meditate away sickness that lasts for days it will leave if you heat yourself up after an hour or 2.

You can do this as well.

You will feel people around you like say down a aisle at a store.

Jupiter represents Rome/the west.

Saturn represents Israel and the middle eastern Islamic countries

This article OP is referring to states that they are merging together on the winter solstice. That's not what's really happening. It's an occult metaphor. What it means is that Jews are going to replace western culture and civilization with a Saturn worshipping civilization which places Jews at the centerfold.

>there's nothing new under the sun/son/father

>it's metaphysical, and it's physical, all it takes is observations and introspection to see it. there's no manual necessary.

>physically like you said 'big bang' all things were one, they all expanded out like dust. they began to clump together, into planets, stars, etc. it's all expanding out from the center of all things. the source. and just as that dust gathered to form planets, eventually the perceived endless expansion will slow, it will stop, and it will retract, and all the planets will be as the dust, gathering together again.

>so many people know of this concept and just glaze over it. an easy way to make those who do understand this physical nature of this 'big bang' phenomenon understand it's metaphysical (spiritual) implications is to get them to ponder the source of our own individual consciousness.

>if we're conscious, then what ever that single object we came from was conscious too. it couldn't have been made from nothing. with that then some aspect of consciousness resides in all things, maybe not to the same degree, but it's there none the less. then they'll see, where we come from, and where we're going.

>from ashes to ashes, dust to dust.
>nothing new under the sun... or the moon

Consciousness/scintilla might coalesce like most things do

Hermes can be thought of as the God voice in bicameralism, one's guardian angel or daemon. Hermes (who is also variously known as Atlantiades, Thoth, Enoch, Mercury), the messenger of the gods or "god of travelers/boundaries", literally means "heap of stones, boundary marker." The duality from which this reference stems is life and death – the heap of stones at a gravesite that stands at the threshold between the material and spiritual.

Similarly, Shiva and counterpart Parvati/Kali/Shakti were originally a merged entity known as Ardhanarishvara. When rejoined and reconcile, they reside back in the heart center.

The spiritual journey (i.e. one's awakening) is symbolically represented on Hermes' staff, the caduceus – the two snakes of the kundalini (representing the male and female -Shakti- energies of earth) wind their way up the spine, activating each chakra, until they ultimately bootstrap the soul and set it free into the heavens (represented by the wings at the top of the staff).

Spiritual liberation can thus be seen as a four step, sequential, duality-bridging process. The female aspect first liberates the male spiritually (integration of the anima), the male liberates the female materially (the slaying of the dragon), the female liberates the male materially (the holy marriage), the male liberates the female spiritually (the integration of the animus) – this final step is hinted at by Andromeda's very name, which means "to be mindful of man." In Jungian terms, the result is a quaternio hieros gamos – a holy marriage between the four aspects of the two individuals.

part2

Her - Me.

You and her.

Two the poles here are male + female.

Angels/dæmon are essentially part of one's higher self that resides in the world of forms during an incarnation. Following the incarnation, the whole "soul" is reunited in spirit.

The dæmon (δαιμόνιον) or genius (as the Romans would have called it) is one's divine personal companion. In the Christian tradition, this is known as the guardian angel.
Dæmons/genii/angels follow each person from the hour of his birth until the day he dies, and beyond.
Highly connected to the Jungian concept of the anima and higher self of one's other half - Dæmons are usually of the opposite sex to their human.
The Higher Self brings meaning and purpose into our lives, and defines the πρόνοια (providence, destiny) governing all humans.
To live meaningful, significant lives, then, we should live in conscious, intentional accord with the destiny of the universe. Jung called this lifelong process individuation, because through it a person becomes individuus, that is, undivided, novel, integral, unique.

first heard animus on some LSD like 7 years ago
been working hard since then, and yes it is of the opposite sex (female voice for me)
smoked some dabs in the first time in a while a couple weeks ago and was tripping high
saw my animus for the first time
a nice friendly female dragon/serpent/naga? sitting on my shoulder

Drugs wont help, your doing more damage than good, desu for me its surprising that you never were avare of that aspect of yourself besides those 2 times. I think you just dont see it, you were for sure, especially in the dreams. I kinda feel bad for you bro, dont do drugs, better drink some ashwagandha tea before sleeping than doing drugs to get in touch with your subconcious...plus thc breaks up the REM phase so you wont be able to have normal dream cycles. It will cripple you, just drop it all now. Iw had more trippy and life changing dreams than any LSD trips, not even comparable. You are using a clutch when you can run.

thanks croat bro i appreciate your care and concern, God Bless
>yourself besides those 2 times
was many more times than that .... had a good sense of intuition before but had never heard an explicit womans voice shouting in my head "dont do that! its a bad idea! dont do that!"
it sounded like it was inside my head and coming from a boxfan at the same time
have had lots of profound dreams as well
i feel you on the drugs i dont much now besides some weed now and then and some booze and cigs but gotta kick it all
i wasnt even truly Saved by Our Lord Jesus Christ until just about 2 years ago
Thank you for the kind words and support croat bro, Much Love

croat bro do you ever get instructed in your dreams? like are in some sort of academy or there is some sort of like dojo master kind of person instructing you? i had this super vivid dream of being in a wizard academy on a moon of some planet, this giant spire with a massive library and tons of rooms. they were telling me they needed me to prepare and get ready

i have also been attacked in my dreams by people as well, taken to some sort of elm street/that secret street in harry potter series .... i called upon Christ to aid me and then I was able to fly in the dream and had swords of flames to attack them with, Thank You Jesus

It is part of yourself talking to itself, subconcious is transfering information into the concious. I never had academy/dojo type of dreams, but super vivid dreams on weird planets with strange skies, sky color and multiple suns yeah, even massive beings made out of stars and other surreal imagery..desu I dont like to share my dreams in details to others. I think its not a good thing, lot of spiritual practices also tell you this, that you should only share dreams under certain ciurcumstances and only with people who you really trust and have the ability to interpret them, ah yes and the bad ones I dont even share at all.

Yeah I know what you mean. Good, maybe you are gifted....tell me one thing, ever dreamed of using a stick to do that?

Attacked...hmm, any small thin hairy looking gobling like demons? black dogs? white female serpents? massive giants?
